“LET OUR 30 YEARS OF EXPERIENCE BE
THE PLATFORM FOR YOUR SUCCESS!”

Hablamos Español

A WORD FROM THE PRESIDENT

Thank you for taking the time to discover The Ding King Training Institute! Since 1993, we’ve been operating retail repair facilities, servicing numerous auto dealerships, and collaborating with major insurance companies to repair thousands of damaged vehicles. Our success stems from our ability to offer a variety of services, which translates to more revenue per invoice.

Our team of Ding King instructors are certified experts who are passionate about teaching you everything you need to know to hit the ground running. We’re committed to your success and offer the highest quality hands-on training and equipment packages to ensure just that!

At The Ding King, your success is our top priority. With over 30 years of experience, we’re confident in our ability to provide you with the knowledge and skills to succeed.

We’re excited to share our expertise with you and help you achieve your goals!

Sincerely,

Todd Sudeck

HUNDREDS OF SATISFIED STUDENTS

Appreciate Ding King's Quality Training

"James, Sal and Lee are great hands-on PDR instructors. They worked with me independently to make sure I got the necessary over-the-shoulder attention that I needed. Training was incredible! Todd taught a business and marketing program that blew my mind! I give this program 5 stars!"

Ethan L.
Yelp Review

"I went to The Ding King Training Institute for the 2 week PDR course. Chase Clark was my instructor and he taught me PDR techniques, tool access, PDR glue pulling, and all about business & marketing. Within one year, I've quit my full time job, and earned the business of 2 dealerships that keep me busy each and every week. Thanks to everyone at The Ding King!"

John T.
Facebook Review

"CLASS ACT! Impressed by how down to earth and approachable everyone was from ALL the instructors to executive staff. The founder's heart is in the right place and it shows from the top down. Impressive teacher to student ratio, too. Obviously, doing something right to be in business for 30 years running!"

Craig P.
Birdeye Review

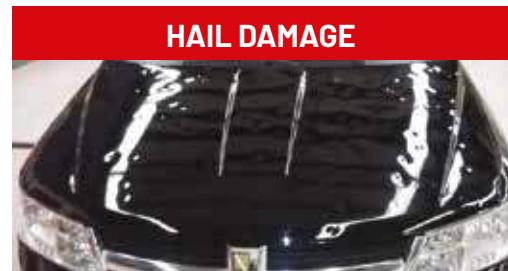

"This school is by far the most recognized school for a reason. The tools are awesome and my instructors were the absolute best to work with. Todd, the owner of The Ding King taught a business and marketing class that was extremely insightful. I would recommend this course to anyone that wants to make money."

LARGE DENTS

BODY-LINE DAMAGE

HAIL DAMAGE

CREASED DENTS

PRESSURE DENTS

THERE'S NO SUCH THING AS A CAR WITHOUT A DING

There are millions and millions of cars and trucks on the road today that have some form of minor cosmetic damage. This is good news for those looking to cash in on 'America's Car Crazy' love affair with their cars.

- Door Dings & Hail Damage
- Scuffed Bumpers
- Chipped Paint
- Cracked Dashboards
- Curb Rashed Wheels
- Chipped Windshields
- Swirl Marked Paint

In addition to offering a variety of PDR Training Programs ranging from 1-week to 12-weeks, we also offer training programs for paint protection film, auto detailing, ceramic coating, bumper repair, wheel refinishing, windshield repair, paint chip repair and other easy to learn add-on courses.

- Ongoing Social Media Guidance

Thank You For Your Service!

PAINTLESS DENT REPAIR INSURANCE APPROVED

HOW PDR WORKS

Paintless Dent Repair (PDR) is the “art” of removing dents and dings from automobile sheet metal and aluminum with the use of specially designed tools. By gaining access to the inside skin of the metal, gentle pressure is applied until the dent is removed. Because PDR works from behind the vehicle’s damage, no sanding, painting or body fillers are required. When repairs are completed, there should be no evidence a dent was ever there.

EXCLUSIVE PROCESS

The Ding King approach to training Paintless Dent Repair is hands-on and utilizes “proprietary processes.” Ding King will teach you to access dents without having to drill holes.

Our NO-DRILLING process, exclusive to Ding King, offers a “leg-up” on your competition and will make your customers extremely happy not to be left with a bunch of drilled holes in their door jam.

PERSONAL INSTRUCTION

The Ding King offers over-the-shoulder instruction in English and Spanish. Our training is highly personalized and hands-on, working on stationary hoods and vehicles of all kinds. Class sizes are small and highly personal, to teach you the most in the shortest period of time. Students will learn to repair a variety of damage including hail, door dings and dents of all types with an emphasis on quality.

INSURANCE APPROVED

Insurance companies worldwide have determined that Paintless Dent Repair is not only a “Viable Alternative” to traditional auto body repair; it is the “Preferred Method” of repair. This has created a tremendous opportunity for those technicians desiring to cash in on the demand for quality hail repair technicians.

As a student of our PDR school, we can assist you in developing a business plan for building a PDR business working with body shops, car dealers and insurance companies. Our programs are recognized by every major insurance company across the USA.

PAINTLESS DENT REPAIR CURRICULUM & TOPICS

STRUCTURED CURRICULUM

We'll teach you step-by-step how to remove both large and small dents on top and side panels, as well as how to tackle more elaborate repairs such as hail damage, vertical and horizontal creases, aluminum repairs and glue pulling.

You'll learn to read the light, proper tool selection, access points, brace configurations and the inner workings of side panels. Our training will provide you with the foundation and skill sets to become confident, proficient and possess the ability to perform quality work.

HAIL REPAIR

If you're looking to become a hail repair specialist, Ding King will teach you what's necessary to work with insurance companies and body shops nationwide.

We've trained hundreds of hail technicians who have gone on to become highly skilled professionals working at all levels of the industry.

We will provide you with the foundation for you to build your skill-sets to become a successful hail repair technician.

TOPICS TAUGHT

- HOW TO READ THE DENT LIGHT
- IDENTIFYING HIGHS & LOWS
- PROPER TAPPING PROCESS
- TOOL SELECTION
- OUR EXCLUSIVE NO-DRILL PROCESS
- TECHNIQUES FOR WORKING ALUMINUM
- ACCESS OF ALL PANELS
- DOUBLE SKINNED AREAS
- MANEUVERING AROUND AIR BAGS
- HEATING OF PAINT FOR GREATER FLEXIBILITY
- INTRO TO GLUE PULLING
- BASIC DOOR DING & DENT REMOVAL
- HAIL DAMAGE
- LARGER DEEPER DENTS
- VERTICAL & HORIZONTAL CREASES
- BODY-LINE DAMAGE
- CURVED DENTS, SMILES, CROWNS
- RIDGES & LIP BEND DAMAGE
- STRETCHED METAL DENTS
- BRACE WORK FOR HOODS, ROOFS & DECK LIDS
- CRASH BARS & SIDE IMPACT BRACING
- WET SANDING & TEXTURING
- BLENDING TECHNIQUES
- ESTIMATING DAMAGE

PAINTLESS DENT REPAIR

ENTREPRENEURS • BODY SHOPS • DEALERSHIPS

GET TRAINED. GET CERTIFIED.

READING DENTS

One of the single most important aspects for learning PDR is to properly “read the light”. Our training curriculum is designed to help you achieve the proper and correct vision techniques to produce quality repairs. Your package includes a portable LED dent light for working indoors or outdoors.

TOOL SELECTION & ACCESS

Tool selection and panel access are thoroughly covered during your PDR training session. After all, if you can’t access a dent, you can’t repair it. All points of access are demonstrated and instructed and our tools have color coordinated handles for specific repairs making it easier to select the right tool for the task at hand.

SMALL TRAINING CLASSES

Our training has been structured for you to learn more in less time. Classes are taught with 1-on-1 interaction or in a small group. Your training will be hands-on while working on real vehicles. We’ll help you through challenging repairs and lead by example, providing you with a foundation to master the art of PDR.

GLUE PULLING

We offer a 1-day Master Glue Pull Course designed to teach you everything you need to know in the greatest of detail to perform quality repairs. This is a separate course than what is taught in PDR40 and PDR80 and will dive deep into the differences of glue pull devices, adhesive glues and dent pull tabs.

Scuffed Bumper & Panel Repair

How many times have you seen a vehicle where the bumper is scuffed or has some type of paint damage? Did you know that each scuffed bumper can be repaired in less than two hours with less than ten dollars in product cost.

In the past, small damage that occurred to your customer's cars was often more trouble for them to repair than it was worth. Most customers were not willing to pay the cost or take the time required by body shops.

The Ding King SMART Paint Repair System allows you to offer fast, dependable repairs at a reasonable cost. All of this adds up to real added value for your customers. And a real profit opportunity for you.

Our Paint Repair System is easy to use, simple to mix and deliver fast-drying high-performance finishes, making every job look like new. This includes spot, panel and overall touch up repairs to solid, metallic and pearlescent automotive finishes.

Repair Rather Than Replace

A chipped windshield is something you see everyday. With personalized training and a quality repair system, you can learn to take advantage of an already existing market.

Our Windshield Repair System is designed to achieve fast, effective repairs on all types of damage: bull's eyes, stone chips, star breaks, and small cracks.

Step-by-step, our instructors will take you through the windshield repair process, from centering and mounting the bridge to vacuuming and injecting the resin. You'll learn all the tricks and short cuts from a company that not only sells the systems, but performs the service.

QUICK & EASY ADD-ONS

The More You Learn. The More You Earn.

HEADLIGHT RENEWAL

\$495

The Ding King's Headlight Renewal Kit is designed to quickly and safely restore and maintain all types of acrylic headlights to crystal clarity, bringing back that "like-new" shiny appearance of the showroom. Using our Headlight Renewal System, you will find it easy to clean away yellowing, foggy or oxidized headlamps. It even buffs out unsightly hairline scratches, smudges, and flaws making this the perfect kit for restoring yellowed headlights.

ODOR REMOVAL

\$995

The Ding King Thermal Fogger Odor Removal System provides for the permanent elimination of pet odors, moldiness and a variety of other annoying smells. Restaurants, RV's, boats, buildings suffering fire or smoke damage and used car dealers are all your potential customers. Rental car fleets, limousine companies and businesses that have lot of cars that get traded in are also a great place to generate business. The Ding King's Odor Removal System includes hands-on training and all the odor removal supplies you'll need.

Our training program is designed for the individual who wants to master the art of auto detailing, paint correction, wet sanding and of course vehicles coatings. You'll learn the techniques and every step of the process as it relates to all types of vehicle coatings.

Learn the Proper Techniques

Our detail courses are instructed in a working shop, under real life conditions, on actual customer vehicles (not body parts). All our training is hands-on, in a structured professional training environment. We will teach you the proper techniques for you to build and grow your own auto detailing business.

5-DAY AUTO DETAIL MASTER TRAINING

- Business Development

LEARN TO REPAIR:

- SWIRL MARKS
- ACID RAIN
- OXIDATION
- SURFACE SCRATCHES
- INDUSTRIAL FALL-OUT
- OVERSPRAY

PAINT CORRECTION EQUIPMENT

\$795

Learning is One Thing Mastering is Another

Paint correction refers to the process of removing imperfections in a vehicle's finish and restoring it to like new condition. These imperfections include but are not limited to, swirl marks or "spider webbing" from automated car washes, fine scratches, water spots, oxidation and bird dropping etching.

Paint correction is a must prior to preparing and applying any ceramic coating so the techniques are thoroughly taught and demonstrated to insure a flawless finish.

CERAMIC COATING APPLICATION

Get Trained. Get Certified.

Ceramic Coating Preparation and Application Techniques

- Preparing Vehicle with Proper Paint Correction
- Learn to Prep Vehicles Paint to ensure True Adhesion to Surface
- Learn Proper Leveling Techniques for Full Coverage of Vehicle
- Master the Art of Identifying Flash / Cure Times
- Learn to Sell with Confidence and Knowledge of Protective Coatings
- Ding King Certified Upon Successful Completion of Program

VEHICLE COATING PROTECTION

Get Trained. Get Certified.

Hydrophobic and Easy to Maintain

This course is designed to provide detailed information about Vehicle Coatings products, processes, with hands on applications. It is highly recommended to take the Paint Correction course prior to attending our Ceramic Coatings Class.

Self-Healing Characteristics

Our vehicle coating products offer years of paint protection from swirl marks and surface scratches, while being hydrophobic and enhancing gloss and shine! REVIVify takes vehicle coatings to the next level.

Vehicle Coatings Protects Vehicles From:

- Swirl Marks
- Car Wash Scratches
- Tree Sap
- Insects
- Acid Rain
- Bird Droppings
- Road De-icing Materials
- Hard Water Spots
- UV Damage
- Paint Over-Spray

- 1 Day of Training
- Vehicle Coating Application
- Certificate of Completion
- Business Development

VEHICLE CHEMICAL PACKAGE

Customized Vehicle Coating Chemical Package

\$1,495

Hands-On Training
We offer the most thorough hands-on training teaching you how to properly prep and apply ceramic coatings. Our Certified Experts will train and certify you with CK1 Ceramic Coatings. We'll also cover the application of REVIVify, a self-healing silicone based coating. With our expert training and quality products, you'll gain the knowledge and wisdom to help you build a profitable business.

Surface Protection
Once applied and cured, REVIVify starts its superior adhesion to the paint, creating a super hydrophobic surface while adding durability to protect against salt, UV rays and all weather conditions by adding a chemical resistant layer on top of your clear coat similar to paint protection film.

Self-Healing
The self-healing characteristics of REVIVify are aided by the heat from the sun, hot water and hot air. There's no limit to how many times the coating can restore itself from minor scratches & swirl marks.

Ultimate Gloss & Shine
The liquid-like shine and gloss of your clear coat after applying REVIVify offers TOTAL SURFACE PROTECTION and is unlike any other product in the marketplace. You truly need to see it to believe it.

PAINT PROTECTION FILM TRAINING

Learn From a 25 Year PPF Professional Instructor

PPF TRICKS OF THE TRADE

Get Trained. Get Certified.

5-DAY PPF COURSE

INCLUDES PPF ACCESSORY KIT

\$4,995

PPF Application to All Panels Including:

- Door Edges
- Bumpers
- Door Cups
- Side View Mirrors

Paint Protection Film (PPF) protects vehicles from all types of road debris and offers the ultimate form of paint protection. The benefits of PPF are significant, protecting the vehicles paint from oxidation, swirl marks and other types of surface contamination that cause UV damage to the factory paint.

PPF is a clear plastic adhesive film that is used to protect the vehicles painted surface such as the leading edge of the hood and bumper, as well as door edges and side view mirrors. PPF invisible film is strong, durable and an excellent way to provide protection from nicks, stone chips, abrasions and bumper scuffs.

2 More Ways Ding King Helps You Grow Your Business

Upon successfully graduating from The Ding King's PPF 5-Day training program, you'll receive 2 Certificates. One from Nano Fusion, our PPF film company of choice, as well as one from The Ding King Training Institute. Your Nano Fusion Certificate will include a specific certification number enabling you to perform and be paid for any warranty work for Nano Fusion for jobs in your area.

Two more ways The Ding King helps our students grow their business!

NANO-FUSION® is the Best Paint Protection Film in the Marketplace

We understand the importance of you leaving your Ding King PPF Training Program and being able to hit the ground running! Equally important is being confident for you to deliver a quality job for your customers.

Each and every Ding King PPF student will receive a thorough step-by-step training manual to take home with you with a specific set of installation training tips that will insure your success as a Certified PPF Installer. We'll guide you and teach you in a 100% hands-on training program.

Our comprehensive PPF installation training curriculum covers the use of the plotter, pre-cut kits, and topics ranging from the most innovative techniques for vehicle installation for windshield and headlamp protection films.

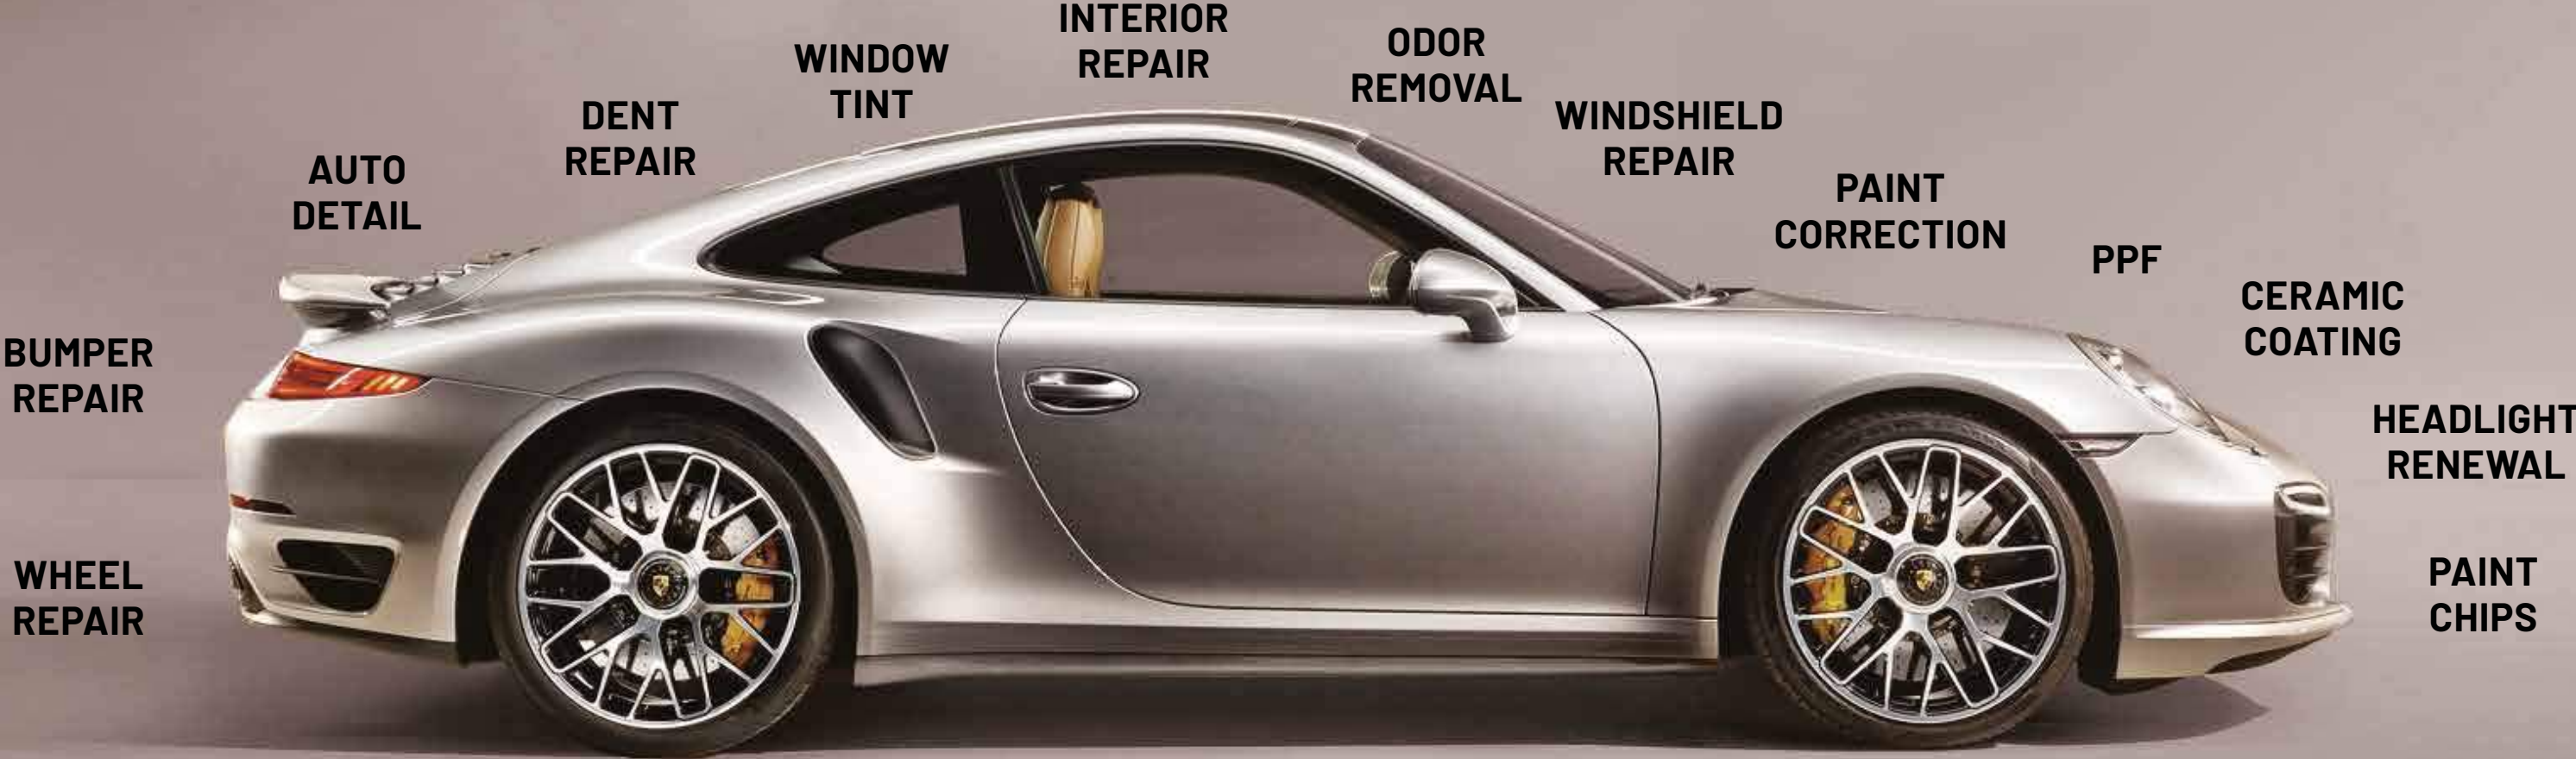

TOTAL RECON PACKAGES
THE ONE-STOP SHOP

CREATE NON-NEW
CAR SALES REVENUE

13 SERVICES = MORE PROFITS

“OFFER THESE SERVICES ON YOUR SERVICE DRIVE”

The Ding King’s TOTAL RECON Packages consist of the most sought after services available in the industry. They have been designed for you to take advantage of the fastest growing segment of the Automotive Appearance Repair Industry: The “Certified Pre-Owned Market” (used cars.)

Transforming their cars into “like-new” condition is necessary in order to be designated a “Certified Used Vehicle Dealer.”

Used car managers rely on many different vendors to perform a variety of appearance repair services. By eliminating these multiple vendors and working with one TOTAL RECON specialist, dealerships would save a tremendous amount of time and money.
